

Intern (f/m/d) – Visiting Analyst Venture Capital

📍 Munich, Germany (hybrid work possible)

About us

We are the corporate venture capital arm of the ams OSRAM group. Backed by the world leader in photonics and optical solutions, we are passionate about investing in early and growth stage deep tech startups with innovative products and technologies which support ams OSRAM's mission to improve everyone's daily life. With a geographic focus on Europe, Israel and North America, we allocate initial tickets between 1 and 10 million Euro. We take an active role in our portfolio companies, helping talented and visionary founders to scale up and turn their disruptive ideas into commercial success by leveraging the expertise of our internal and external network.

Technologies*

*Computing
& AI*

Your Role

You want to kickstart your career in the VC industry? To complement our team, we are looking for an entrepreneurial-driven and aspiring person who is passionate about new technologies. Your full-time internship will last 3-6 months. You will work as an analyst in our investment team in Munich and get insights into all aspects of the Venture Capital process. You will be a fully-fledged member of the Fluxunit team, actively guiding us through decisions and taking responsibility over various tasks including own projects. Once you are here, you will:

- Proactively conduct market and technology analyses and identify attractive technology startups to guide our investment decisions
- Organize, prepare and take part in meetings with founders/managers of potential investment targets
- Develop investment hypotheses, financial models as well as exit scenarios
- Assist investment managers in commercial/financial due diligence on potential investments
- Support creating investment memos for the Investment Committee and therefore laying the basis for investment decisions

Qualifications

- You are studying a Bachelor's or Master's degree, preferably in (Electrical) Engineering, Physics or other Natural Sciences, Computer Science or (Technical) Business Administration with very good academic records
- You have an excellent command of PowerPoint and Excel and you are fluent in German and English
- Prior experience in the VC, M&A, Consulting, company builders or VC-backed start-ups is a plus

Your personality

- You have an entrepreneurial spirit and get excited by innovative business models and technologies
- Strong analytical skills, a high degree of commitment, self-reliance as well as great communication and networking skills complete your profile. You are collaborative and empathetic.
- You like to have fun at work and to work in a dynamic and international environment

Benefits

At Fluxunit we equip you with all the necessary tools and learnings to start a successful career in the VC industry as our previous interns prove. Additionally, as a full team member we support your personal and professional development and foster your interests. Together with an attractive compensation and flexible work environment, we offer you a steep learning curve and great exchanges with startup and deep tech leaders.

We believe a diverse workplace is an important asset, since it acknowledges individuals' strengths and potential and ensures a variety of different perspectives which leads to better decision making. Therefore, we encourage people of all ethnic & racial origins, gender identities, sexual orientations, religions & ideologies, socio-economic statuses, educational backgrounds, ages, and individuals of all abilities to apply.

Interested? Please send your CV, certificates and a short blurb describing your skills and motivation to our invest manager Patrick. We are looking forward to meet you!
